

SYMPTOMSTREAM

Patient engagement turned actionable insights

Challenge: Clinics and hospitals are struggling with communication, patient retention, and opportunity costs. Organizations lack clear access to patient engagement-driven actionable insights.

Who We Are

Our co-pilot uses each hospital's website and provided data to deliver instant, accurate answers. On the backend, we generate real-time insights so hospitals can prepare for predicted patient volumes and types based on recent website engagement.

TRACTION

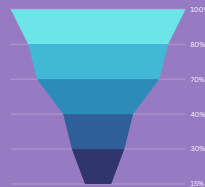

10 signed LOIs

Support from 28/30 private clinic owners
